

Home Weatherization Assistance Program (HWAP) Update

What is HWAP?

Ohio's Home Weatherization Assistance Program is a federally funded low-income residential energy efficiency program. Services include attic, wall and basement insulation; blower-door-guided air leakage reduction; heating system repairs or replacements; and health and safety testing and inspections. All measures are provided based upon an on-site energy audit and on cost-effective guidelines. Individualized client education also is an important component of the program.

Increased Funding

Through the 2009 American Recovery and Reinvestment Act (aka Stimulus package), the funding provided for HWAP to help low-income families weatherize their homes has increased from \$500M to \$5B – that's ten times the previous funding amount!

Qualifications

Households at or below 200 percent of the Federal poverty guidelines qualify for this no-cost program.

<u>Persons in Family*</u>	<u>Poverty Income Level</u>	<u>200 Percent</u>
1	\$10,830	\$21,660
2	\$14,570	\$29,140
3	\$18,310	\$36,620
4	\$22,050	\$44,100
5	\$25,790	\$51,580
6	\$29,530	\$59,060
7	\$33,270	\$66,540
8	\$37,010	\$74,020

*For families with more than 8 persons, add \$7,480 for each additional person.

Submission of HWAP Applications

In the State of Ohio, weatherization funding is managed by the Ohio Energy Office, which is part of the Ohio Department of Development. However, actual applications for funding need to be submitted by homeowners through authorized weatherization providers. A map with a hyperlink by county can be found on the ODOD website at http://www.development.ohio.gov/cdd/oe/HWAP_LocateProviders.htm. That list is also included in this document on subsequent pages.

Please refer your members to the appropriate weatherization provider as listed based upon the county where they live. The member can visit the office, where the provider can assist them with completion of the application, or the member can call the provider and request an application be mailed to them. The provider will handle all communication with the member pertaining to processing of the applications. Applications will be accepted by the weatherization providers beginning April 1, 2009.
